

Luma Connections #17: Ask the Learner

Teaching Tool: Discussion Board

This is an online tool that allows learners to interact with each other to explore a topic and to discuss key concepts and concepts, share experiences, interact with each other, and to ask questions. Interactions are not in real-time and can be mentor-learner and learner-to-learner.

Tip: Ask the Learner

Most discussion boards are directed by the instructor. Have you ever thought about why Facebook is so successful? People like to talk and share things about themselves. Ask the learners what types of discussion boards they would like to have set up for them.

Send out a survey through Luma and get their feedback.

Survey

We are going to have spaces where you can connect with others at our organization and discuss topics with your peers.

Would you like to connect with your peers in a virtual discussion area?

- a. Yes
- b. No

Submit

For those that would like to participate, what topics or types of discussions would you want us to set up?
